EASY-STOP™ TRAILER ABS RETROFIT KITS

Features and Benefits:

- Retrofit kits contain Enhanced Easy-Stop ECU/Valve with a power cable adapter or power/diagnostic cable adapter
- Includes adapters required to plug into the existing Easy-Stop power cable and the new Enhanced Easy-Stop ECU/Valve
- Same sensors, sensor extension cables, clips, diagnostics, and blink codes as the Easy-Stop platform
- Additional support literature available; trailer ABS quick reference (TP-0173) and trailer ABS wall chart (TP-0692)
- Delivers real-time data communication between tractor and trailer systems equipped with Power Line Carrier (PLC) communications and InfoLink
- Service and support throughout North America by our industry-leading Customer Service team

	S894 606 050 0	20	6	4-conductor pigtail power cable. Sold with industry standard harness connector.
	S894 606 275 2	1.65	.50	Used with 2S/1M Basic ECU/Modulator Valve Assembly - connects the relay valve to the ECU. Right angle connector.
	S894 606 295 2	2.13	.65	TCSII Extension Modulator Valve Cable
	S894 607 312 0	1	.30	Connects Easy-Stop power cable to an Enhanced Easy-Stop ECU/modulator valve assembly.
	S894 607 313 0	10	3	Connects Easy-Stop power cable to an Enhanced Easy-Stop ECU/modulator valve assembly.

TRAILER

RSS+ EXTENSIONS

	PART NO.	FEET	METERS	APPLICATION
	S449 723 018 0	6	1.8	Use with RSS 2M only. Sensor extension cable with 90 degree connector at the ECU. Plugs into standard Meritor WABCO ABS sensors.
	S449 723 030 0	9	3	Use with RSS 2M only. Sensor extension cable with 90 degree connector at the ECU. Plugs into standard Meritor WABCO ABS sensors.
	S449 723 051 0	16	5.1	Use with RSS 2M only. Sensor extension cable with 90 degree connector at the ECU. Plugs into standard Meritor WABCO ABS sensors.
	S441 050 100 0			Distance sensor used for mechanical coil spring applications.

IN-LINE FILTERS

	PART NO.	APPLICATION
	S432 500 005 0	In-line filter (complete valve). Mounted at the Gladhand. Highly recommended for control line. Prevents contamination of the trailer's air system. Requires regular cleaning, but equipped with a bypass if needed.
	S884 490 307 4	Grease
	S897 080 360 4	O-Ring

TOOLS

	PART NO.	APPLICATION
	S100 100 002 4	In-line filter tool (to clean and replace cartridge). For S432 500 005 0 only.
	S100 100 101 0	Sensor Block Mounting Fixture for TP axles. MBS2 retrofits will require the use of several available tools to assist in proper installation. See TP-06110 for technical publication on the MBS-2 retrofit process.
	S2237 Z 1222	A sealed switch and lamp that connects to the SAE J1587 diagnostic connector. This tool is used to activate the Easy-Stop and Enhanced Easy-Stop blink code diagnostics, configure the ECU, and test the installation. The tool is designed to remain on the trailer at all times.

BRACKETS

	PART NO.	APPLICATION
	S478 407 058 4	For 2S/1M ECU/Valve assemblies only.

Replaces 973 500 105 0 Quick Release valve

MODULATOR VALVE KIT

**R950134**

Replacement kit contains replacement valve, bolts, o-rings and lubricant.

**R950140**

Replacement kit contains replacement valve, bolts, o-rings and lubricant.

Replaces 472 195 080 0 Left ABS valve

**R950141**

Replacement kit contains replacement valve, bolts, o-ring, lubricant and cables.

Replaces S472 500 004 2

**R955353**

Replacement kit contains replacement valve, bolts, o-rings and lubricant.

R955354

Replacement kit contains replacement valve, bolts, o-rings and lubricant.

MERITOR WABCO SYSTEM SAVER 1200/1800 AIR DRYERS

BYPASS VALVE ASSEMBLY

Bypass valve is used on dryers with date codes earlier than 0894.

1200 Series air dryers do not use bypass valve.

DATE CODE INFORMATION

To identify a specific model air dryer, Meritor WABCO uses a date code. This code appears on the part number identification tag on the face of the dryer, as illustrated below:

For Technical Support, please see:

CARTRIDGES

PART NO.	APPLICATION	PART NO.	APPLICATION
 R950011	For use on System Saver 1000 and 1200 Series and TWIN air dryers	 R950048	For use on System Saver 1800 Series air dryers. Can be retrofitted to an existing SS1200 air dryer to increase drying capacity.
 R950068	Coalescing version of System Saver 1200 and TWIN air dryer and other spin-on dryer applications. Improved oil separation verses conventional cartridges.	 R950069	Coalescing version of System Saver 1800 air dryer and other spin-on dryer applications. Improved oil separation verses conventional cartridges. Requires more frequent service intervals.

VALVES

VALVE KITS

	PART NO.	VALVE TYPE	KIT CONTENTS	APPLICATION
	R950012	Regeneration	Diaphragm, Cap, Compression Spring, Valve Housing, Capscrews	For dryers with date codes earlier than 2295. For SS1200 and SS1800 models.
	R950013	Turbo Cut-Off	Plug, Retainer Ring, Cover, O-Ring, Compression Spring, Piston (valve), Lip Seal	If you are replacing the turbo cut-off valve on a System Saver 1200E air dryer, please contact Meritor WABCO at 800-535-5560 for part number information.
	R950014	Purge	O-Rings, Washer, Piston Assembly, Shims, Spring, Valve Head, Retainer Ring	Install washer with lip facing piston seat. Shims may not be included in this kit. If not included, they are not required. If included, they must be installed above and below the spring. Kit is for use on all single cartridge dryers with U.S. (NPTF) ports.
	R950015	12-volt Heater Assembly	Mounting Screws (2), Wiring Connector, O-ring, Wire, Heater, Thermostat, Plastic Retainer, Retainer Screw	12-volt heater kit for dryers with date code 0994 and later. For all System Saver Series Air Dryers.
	R950016	24-volt Heater Assembly	Mounting Screws (2), Wiring Connector, O-ring, Wire, Heater, Thermostat, Plastic Retainer, Retainer Screw	For all 24-volt System Saver Series Air Dryers.
	R950017	Outlet Check	O-Ring, Valve Body, Compression Spring, Washer, Retainer Ring	Kit is for use on SS1200 and SS1800 air dryers with U.S. (NPTF) ports.
	R950018	Bypass	O-Rings, Valve Body, Compression Spring, Cover, Retainer Ring	Use on dryers with date code 0894 or earlier. Check date code on dryer before ordering this kit. The date code appears on the i.d. tag on the face of the dryer. For use on SS1200 and SS1800 Models.
	R950044	Regeneration	Diaphragm, Cap, Compression Spring, Valve Housing, Capscrews	For dryers with date codes 2295 and later. For use with all System Saver Series Air Dryers

OnGuard™

Collision Mitigation System

Pioneers of Commercial Vehicle Safety

For more than 20 years, Meritor WABCO has driven innovation across the commercial vehicle industry by continuously introducing advanced technologies that enhance the safety and performance of fleets across North America. As a part of its Driver Assistance Systems, Meritor WABCO designed OnGuard, a Collision Mitigation System, to help detect and avoid potential rear-end collisions, keeping drivers and fleets safe on the road.

OnGuard, Your Co-Pilot on The Road

OnGuard is a radar-based Collision Mitigation System that offers Forward Collision Warning, Active Braking and Adaptive Cruise Control (ACC). OnGuard detects objects ahead and assists the driver in recognizing and responding to potentially dangerous driving scenarios that could lead to a rear end collision. OnGuard is always monitoring the road and provides warnings and active braking when deemed necessary, even when cruise control is not set. When an impending collision is detected, OnGuard has the ability to provide audible, visual and haptic warnings, automatically reduces engine torque and applies the foundation brakes to help avoid or mitigate a collision.

Cutting Edge Radar Technology

OnGuard uses forward-looking radar with cutting edge dual-beam technology to detect objects in your vehicle's path at distances up to 650 feet away. The dual beam radar uses far-range and near-range detection to expand the total area of radar coverage. This provides fast and accurate detection of objects far ahead while covering a wider angle to check adjacent freeway lanes for vehicles.

Not all collision mitigation systems are created equal. OnGuard's 77 GHz radar provides fast data processing, long range, and accurate object recognition while maintaining its performance in harsh weather and all lighting conditions. These are important aspects that optimize safety margins.

Forward Collision Warning, Multiple Layers of Protection

At Meritor WABCO, our ultimate goal is your safety. That is why OnGuard offers three levels of warnings to alert you to potential rear-end collisions. The system provides audible beeps and visual warnings on the OnGuard display when it detects that a potential rear-end accident. It also provides an industry-exclusive haptic warning which is a quick pulse of braking felt when a collision danger is present to accelerate the driver's response to imminent collisions.

Stationary Objects Alert, Watching Out For You

OnGuard adds another layer of protection by sending audible and visual warnings when it detects a stationary object obstructing your lane, such as disabled cars, to help drivers react faster to possible dangers ahead.

Adaptive Cruise Control, Keeping Your Pace

OnGuard's Adaptive Cruise Control (ACC) offers a multitude of safety and convenience benefits. The system looks at the traffic ahead and adapts the vehicle's speed accordingly. It helps maintain a safe following distance between your vehicle and the vehicle ahead. OnGuard ACC not only makes driving those long hours a more relaxed and pleasant experience, but also a safer one.

Active Braking, Smart Choices

If OnGuard detects a rear-end collision is developing without the driver taking action to decelerate the vehicle, the system automatically de-throttles the engine and applies foundation brakes to provide up to 50% braking power to help mitigate or prevent a collision. Adaptive Cruise Control also uses engine and Active Braking to reduce your vehicle's speed to maintain a safe following distance between your vehicle and the vehicle ahead.

OnLane™

Lane Departure Warning

Stay On Track

OnLane™ Lane Departure Warning (LDW) System with SafeTrak technology by Takata is a camera-based warning system that helps your vehicle stay on track and avoid unintentional lane drifting. The system utilizes a camera mounted near the top center of the vehicle's windshield to monitor and calculate the vehicle's position within the lane. When OnLane detects the vehicle crossing lane markings without the turn signal being activated, the system sounds an audible warning. This alerts the driver to take corrective action to prevent potential collisions or run-off-road accidents.

OnLane Can Help

Every year there are thousands of accidents involving trucks caused by accidental lane departure; 48% of these would have been avoidable if the truck was equipped with a lane departure warning system*. Meritor WABCO prides itself on having exceptional return on investment and a proven record of accident reductions at fleets using OnLane. OnLane is a powerful tool that can help your drivers improve their driving and lane changing habits which enhances your fleet's safety, reduces vehicle downtime and decreases accident rates while improving your CSA's compliance. In addition, many telematic providers provide lane departure event notifications triggered by OnLane.

Driver Alertness Warning

As part of its advanced technology, OnLane provides a Driver Alertness Warning (DAW) feature. OnLane computes an Alertness Index based on driving performance and alerts the driver when the index falls below a certain threshold over a period of time. DAW warns the driver by providing a distinct audible warning tone when it detects erratic driving behavior within a lane. The alert will stop when the driving performance has improved or when the key is cycled.

* FMCSA Onboard Safety Systems Effectiveness Evaluation, 2013

Video Capture: Your Eyes on The Road

OnLane offers an optional video capturing feature that records and stores video footage when a critical event triggers your vehicle's safety systems. OnLane will capture video when your vehicle's ABS, stability control system, or forward collision warning system are activated beyond a certain threshold. This feature equips you with a powerful reconstruction tool to review situations that activated any vehicle's safety systems. The system records ten seconds before a critical event is triggered and five seconds after. It also stores up to twenty video clips which can be downloaded via Meritor WABCO's TOOLBOX™ and viewed directly on your computer screen.

Minimized False Alarms

OnLane features False Alarm Detection and Suppression Modes which help reduce false alarms by suppressing alerts in construction zones and when the system loses lane marker tracking confidence. Confident lane tracking is required for a few seconds before warnings are enabled again.

Retrofits

Meritor WABCO makes it easy for fleets to retrofit a broad spectrum of commercial vehicles with OnLane. We offer an OnLane aftermarket retrofit kit for a hassle-free installation at your local dealer. To order a retrofit kit contact our Aftermarket sales at 888-725-9355.

MERITOR AFTERMARKET PARTS WARRANTY

We warrant all new parts for one year from date of shipment to the buyer against defective material or workmanship (but not against damage caused by accident, abuse or improper installation, maintenance or repair) when such parts are used on vehicles the specifications of which have been approved by our Engineering Department.

As the exclusive remedy under this warranty, we will, at our option, repair or replace such parts free of charge, or take back the nonconforming parts and refund the monies paid by buyer for such parts, if found on examination by us to be nonconforming and if any necessary return charges are prepaid.

If it is necessary to return any parts under this warranty, buyer agrees not to make any deduction on account thereof from remittances on current accounts while claims are in the process of disposition. Any expense incurred without our consent for repairs or replacement will not be allowed.

THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES OR CONDITIONS, EXPRESS, IMPLIED OR STATUTORY, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE. IN NO EVENT SHALL SELLER BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY NATURE.

Only genuine Meritor replacement parts are covered by this aftermarket parts warranty.
